Breaking Boundaries

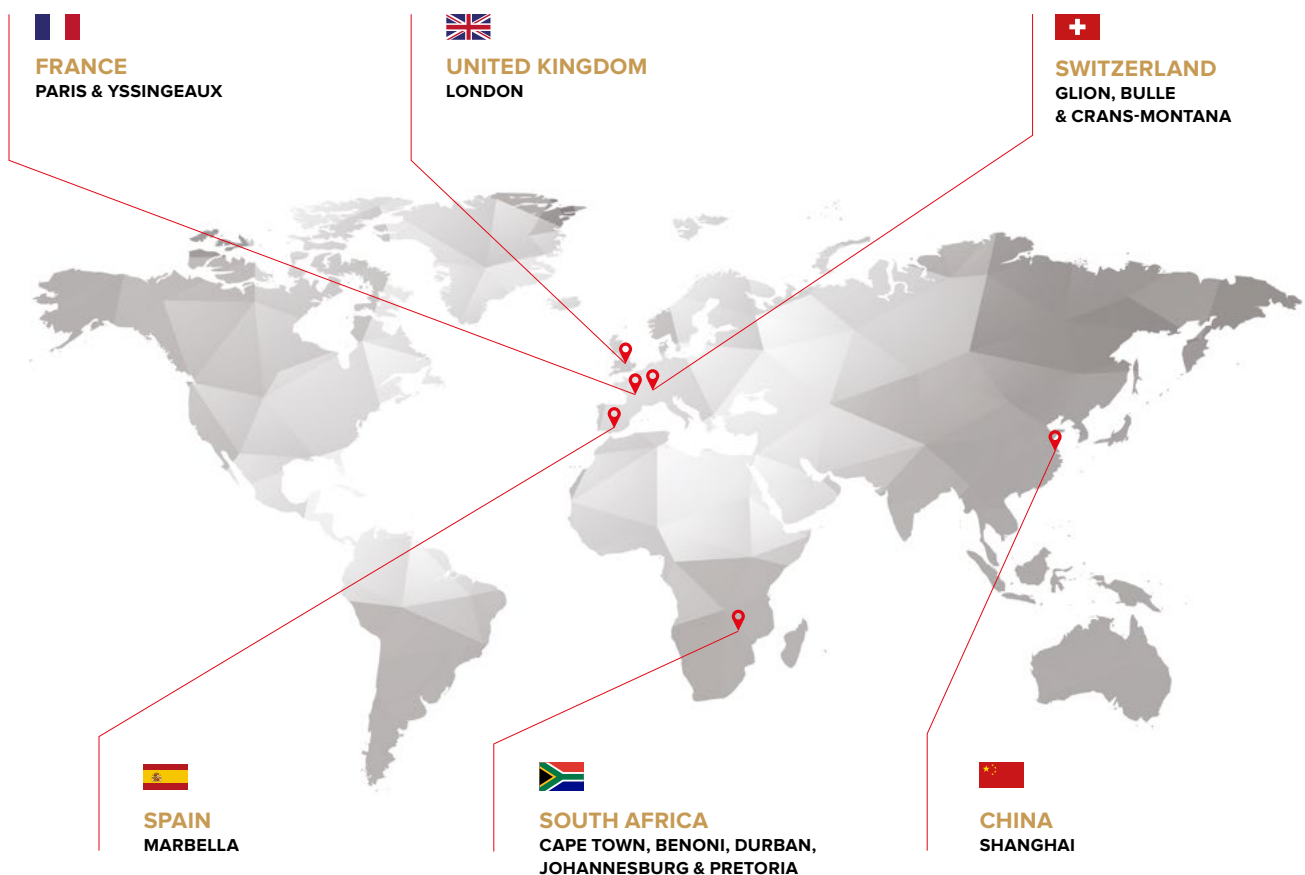

WELCOME TO THE GLOBAL HOSPITALITY SCHOOL

The hospitality sector connects people, places and experiences like none other. At Glion and Les Roches, students can get Swiss hospitality education at six state-of-the-art campuses around the world. At École Ducasse schools, students can acquire French savoir-faire and knowledge in culinary and pastry arts at three French campuses and through partnerships with overseas universities. At Invictus Education Group schools, students can benefit from focused education in hospitality, culinary and pastry arts, gaming and creative media, in one of the 8 South African campuses.

They can further customise their learning experience through study abroad opportunities across Sommet Education's global network.

Each program offers courses and specialisations that reflect the unique nature of the location, but they all develop the same cultural fluency – an ability to work with people from different nationalities, speaking different languages and operating in different business cultures.
